

Encyclomedia Studio Specs

BASIC INFO

Our studio is approx. 1850 sf. with a back tool room and roll-up door which opens up right into the back parking lot. Additionally, there is Makeup Room adding an additional 450 sf. The ceiling joists are 20ft high with the lighting grid hanging at 14ft.

The studio has a corner green cyc wall which measures 26' on the short side and 36' on the long side. The height of the cyc wall is 15'. (see attached diagram.)

On the east wall there is a white cyc wall which measures 21' wide and 15' high

POWER

The main studio power feed is 200amps, shared between an 160 amp distro-box with 25 ft banded extension, and 8 - 20amp boxes attached to the grid. All grid lights come pre-wired but there are also additional stingers to add lights or move them around.

There are additional wall outlets that are on a separate feed that can add an additional 100 amps.

LIGHTING

Daily rental of the studio includes 7 2K scoops that are positioned to light the cyc walls. Two 6K space lights are also available on the grid and 4 1K Fresnels and are on standby at no charge. ALL LIGHTS ARE TUNGSTEN (3200K)

Any Additional lighting is available for Rental. If not included, please ask for our rental catalog (which includes Lights, Additional Grip Gear, Cameras, Lenses, Tripods, Stabilizers, Dollys, etc.)
